Recommendations

• Revenue is trending down (-98.62% overall). Consider reviewing recent pricing, marketing spend, or churn among top customers.

• 10 product(s) are running low. Plan reorders soon to avoid stockouts.

• 'Mouse' and similar low-performing products may be worth discounting, bundling, or discontinuing.

• '1095.0' is your highest-value customer. Consider a loyalty offer or personal outreach to retain this relationship.

• 6 sudden revenue spike(s) or drop(s) were detected. Investigate these periods for one-off events (promotions, outages, seasonal effects).
